DETAILED ACTION

Status of Claims

Claims 1-13 and 18 were allowed in the previous Office Action mailed March 9, 2010.

Claims 14-16 have been rejected in the previous Office Action mailed March 9, 2010.

Claim 17 have been canceled by Applicant's amendment filed June 9, 2010.

Claims 1-16 and 18 are now currently pending.

All rejections and/or objections not explicitly maintained in this office action have been withdrawn per Applicants' claim amendments and/or persuasive arguments.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 14-16 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by US 2003/148165 A1 (US'165), previously cited by Applicants. The US'165 patent application discloses a metallo-organic framework material, particularly MOF-5, useful for storing gas in the area of fuel cell technology. Said material has a high surface area. See entire document. Note that the material of US'165 were made by a different method compared to the claimed materials. However, the material of US'165 appear to be identical to the claimed material.

Allowable Subject Matter

Claims 1-13 and 18 are allowed.
